TITLE	1973-74 Student Charges at State and Land-Grant Universities (Tuition, Required Fees, Room and Board).
INSTITUTION	National Association of State Universities and Land-Grant Colleges, Washington, D. C. Office of Research and Information.
PUB DATE	7 Oct 73
NOTE	15p.
EDRS PRICE	MF-$0.65 HC-$3.29
DESCRIPTORS	College Students; *Costs; *Educational Finance; *Higher Education; Land Grant Universities; Nonresident Students; Resident Students; School Surveys; *Student Costs; *Tuition

ABSTRACT

One hundred and fifteen National Association of State Universities and Land Grant Colleges member institutions were surveyed on basic charges for tuition, required fees, and room and board. Participants were also asked to provide an estimate of the amount required for a student's "other expenses" for an academic year. Survey results indicated increases in median tuition for the 1973-74 academic year will affect resident and a nonresident students approximately the same. However, the amount of the increase in median total charges for nonresident students was more than double the amount of the increase for resident students. Students charges at member institutions are indicated according to tuition and/or required fees for resident and nonresident students, room rate, and board rate. (MJM)

INFLATION TAKES TOLL ON LOW-COST PUBLIC EDUCATION

Inflation has taken its toll on student charges at the nation's traditionally low cost state universities and land-grant colleges once more this fall.

Increases in median tuition for the 1973-74 academic year will affect resident and non-resident students approximately the same, according to data provided by 115 institutions participating in the annual survey of charges and costs conducted by the Office of Research and Information of the National Association of State Universities and Land-Grant Colleges (NASULGC). However, the amount of the increase in median total charges for non-resident students was more than double the amount of the increase for resident students.

NASULGC member institutions were surveyed on basic charges for tuition, required fees, room and board. For the first time, participants were also asked to provide an estimate of the amount required for a student's "other expenses" for an academic year. Expenses for books, supplies and for personal and incidental expenses were included in the estimates.

MEDIAN STUDENT CHARGES AT STATE AND LAND-GRANT INSTITUTIONS

	Tuition and Required Fees						Total Charges	
	Res.	Non-R.	Room	Board	Com-[1] bined R&B	Tot-[2] alled R&B	Res.	Non-R.
1973-74	$520	$1,336	$405	$596	$1,032	$1,025	$1,514	$2,443
1972-73	485	1,299	390	578	960	960	1,467	2,305
$ increase	35	37	15	18	72	65	47	137
% increase	7.21%	2.85%	3.85%	3.11%	7.50%	6.77%	4.98%	5.99%

Figures shown are the median rates for typical full-time undergraduate students for two semesters, two trimesters or three quarters.

[1]These are the median charges for both room and board at those institutions which do not have separate rates for room and for board.

[2]These are the median charges for room and board at all institutions which provide these services, whether such charges are made separately for room and for board, or in combination.

The median charge for resident tuition and required fees jumped from $485 in 1972-73 to $520 in 1973-74, increasing $35 over the period. At the same time the median charge for non-resident tuition and required fees was boosted from $1,299 to $1,336 for a $37 hike. The median charge for graduate tuition was slightly higher for resident students at $544 and slightly lower for non-resident students at $1,332.

The median amount of total resident charges at NASULGC institutions was $1,514, moving up $47 from the 1972-73 level of $1,467. Median total charges for non-resident students increased from $2,305 to $2,443 for a $138 increase.

Median room rate charges increased from $390 to $405 for a $15 boost. Median board rates moved upward $18 from $578 to $596. Among institutions charging a combined rate for room and board, the median annual amount increased from $960 to $1,032, or $72. Totalling the amount charged for room and board at all institutions, whether charges were made separately or in combination, the median moved upward from $960 to $1,025--a $65 rise.

The median figure estimated as the amount needed to cover "other expenses" for the academic year was $600, based on responses from 80 member institutions.

MAJORITY OF SURVEY RESPONDENTS INCREASED AT LEAST ONE CHARGE

Ninety out of the 115 respondents to the NASULGC survey, or 78 percent, increased at least one charge. Of this number, well over half of the institutions (58) cited inflation as a reason for the rate increase. The necessity to maintain program quality was listed as a reason by 37 institutions and 28 participants noted that an inadequate appropriation from their state legislatures had necessitated an increase in the amount charged students.

Other reasons for increases, cited by a smaller number of colleges and universities, were the need to increase faculty and staff salaries, the lack of any other source of additional revenue and the need to hire additional faculty and staff. Three institutions noted that they had increased fees to help pay for new buildings.

An analysis of the number of institutions which increased charges in each category showed that approximately 30 institutions boosted charges in each of the areas surveyed. The five categories included resident and non-resident tuition, required fees, room and board.

Among the institutions increasing charges, 15 institutions increased only one charge, 37 institutions increased two charges, 16 institutions increased three charges, 18 institutions increased four charges and four institutions increased all five charges.

(The following chart shows the number of institutions increasing charges in each category.)

INSTITUTIONS WITH INCREASES IN CHARGES

Fee	Number of Institutions Reporting Increases
Tuition	
Resident	30
Non-Resident	39
Required Fees	30
Room Charges	33
Board Charges	34
Combined Room & Board Charges	33

A FEW DECREASES AMONG INCREASES

In the midst of the large number of reported increases in various charges, there were nine institutions which showed decreases in one fee or another. For the second straight year, the University of New Hampshire lowered its tuition charge for resident students. Tuition was dropped to $900 from the 1972-73 level of $950 for a 5.3 percent decrease. The university has also announced that it will thoroughly review its financial situation prior to December in an attempt to reduce tuition by an additional $45.

Five institutions reported minor decreases, ranging from $1 to $14 in required fees. Board charges were reduced at two institutions--Arizona State University and the University of Nevada, Reno. However, at Arizona State the decrease was offset by a corresponding increase in room charges. At South Dakota State University the average room charge dropped because of a decrease in the amount of the highest rate charged. However, the lowest rate charged was slightly higher than in 1972-73.

HIGHEST, LOWEST RATES VARY WIDELY

Charges for resident tuition and fees at individual NASULGC institutions during 1973-74 ranged from $70, for New York City residents attending City University of New York, to $1,350 for students enrolled in the statutory colleges of Cornell University. However, 67 of the 115 survey respondents charged tuition and fees in the $300-$599 range.

There were ten institutions with annual tuition and fees of less than $300, while at the upper level, there were only four institutions charging more than $1,000 annually for tuition and fees.

Non-resident tuition rates had a much wider range from a low of $400 at the University of Guam (the only institution with an annual rate of less than $600) to the high of $2,800 for juniors and seniors at the University of Michigan. Unlike resident tuition, the majority of charges did not center on any one area. However, there were 19 institutions charging an annual rate of more than $2,000 and 54 of the 115 respondents charged annual fees in the $900-$1,399 range.

Total charges for resident students, excluding those institutions which do not provide room and board, covered an extremely broad spectrum. The lowest sum reported for total resident charges was $1,080 at the University of Arkansas, Pine Bluff. The highest amount was $2,935 for the statutory colleges of Cornell University. However, only 17 institutions had annual charges in excess of $2,000.

For non-resident students the lowest annual total charge was $1,440 at Lincoln University (Missouri) while the highest charge was a staggering $4,098 for junior and senior out-of-staters attending the University of Michigan. In addition to Michigan, there were 23 member institutions with annual total charges above $3,000. The bulk of the institutions (67) had annual total charges for non-residents in the $2,000 to $2,999 range.

(Complete lists of the ten institutions with the highest and lowest charges for tuition and required fees and for total charges, resident and non-resident, are shown at the end of of the report.)

AN ALARMING TREND

The University of Michigan, which levied fee increases on all categories of students for the 1973-74 academic year which were among the highest in the nation, illustrated what may become an alarming trend for the years ahead. University of Michigan fees for resident students are now the sixth highest among all state and land-grant institutions and are the highest for non-resident students.

In announcing tuition hikes, which ranged from 15 percent for freshmen and sophomores, both resident and non-resident, to 30 percent for resident juniors, seniors and graduate students, the university stated several reasons for the large price boosts.

The principal reason was a ruling by the United States Supreme Court which invalidated the system the university had been using for judging who was and was not a resident of Michigan for tuition purposes. Under new residency guidelines established as a result of this ruling, the university anticipates that more students heretofore classified as non-resident can become residents. The university estimates that the resultant loss in annual revenue will be approximately $2.5 million.

"There is no way to make up this loss except through increased tuition," noted President R. W. Fleming in a letter to all university students. "Since there is no way to make it up through increased non-resident fees without making such rates prohibitive, the increase must be spread over all students."

As other institutions are required to change existing rules pertaining to residency, it seems likely that they also will make price adjustments comparable in size to the Michigan increases.

In his letter, President Fleming reported an additional reason for the increase which pinpointed another developing trend which could adversely affect tuition at all state and land-grant universities. He cited "the disposition of the state to put more of the cost of education on the student and less on the taxpayer.

"We hope this trend can be arrested or reversed, since we believe that public universities have served the nation well by tuition charges which are not more than 30 percent of the direct cost of education."

STUDENTS ARE PAYING MORE OF INSTRUCTIONAL COSTS

Resident students at state and land-grant colleges now appear to be paying approximately 32 percent of the cost of instruction at the undergraduate level and 17 percent at the graduate level.

This estimate is based on a comparison of the 1973-74 median resident tuition with figures provided by survey respondents on the average cost of instruction for both undergraduates and graduates.

The median figure for the average cost of undergraduate instruction, based on data from 38 member institutions, was $1,624. The median figure for the average cost of graduate instruction, based on data from 33 member institutions, was $3,120.

The non-resident student pays a much higher percentage of the average cost of instruction. Undergraduate students now pay 82.3 percent of the median cost of undergraduate instruction, and graduate students pay 42.7 percent of the median cost of graduate instruction.

REGIONAL MEDIANS FOLLOW
TRADITIONAL PATTERNS

Regional patterns for median charges for resident tuition and required fees remain much the same in 1973-74 as in previous years. Tuition and required fees and total charges are the highest in the Middle Atlantic and New England states and the lowest in the Southeast and West, with the Midwest remaining in the middle.

For non-resident tuition, however, the Midwest ranked second to New England with the Middle Atlantic, West and Southeast regions following in that order. Total charges for non-residents remained in the traditional rank order with the Middle Atlantic states showing the highest median and the Southeast the lowest.

(The following chart shows regional medians for total charges and tuition and fees, both resident and non-resident, for the 1973-74 academic year.

For regional comparison, the states were divided as follows:

NEW ENGLAND--Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont
MIDDLE ATLANTIC-- Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania
SOUTHEAST--Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, West Virginia, Puerto Rico, Virgin Islands
MIDWEST--Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin
WEST--Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, Washington, Wyoming, Guam.)

REGIONAL COMPARISON OF STUDENT CHARGES

	New England	Middle Atlantic	Southeast	Midwest	West
	(6)*	(12)	(30)	(23)	(30)
Tuition and Fees					
Resident	$ 715	$ 717	$ 493	$ 598	$ 452
Non-Resident	1,662	1,435	1,145	1,522	1,372
Total Charges					
Resident	$1,869	$1,934	$1,453	$1,504	$1,457
Non-resident	2,852	2,720	2,112	2,464	2,443

*Denotes number of institutions in region.

TUITION--A LOOK BACKWARD

A look at what has happened to tuition and fees over the past nine years at state and land-grant universities reveals the extent to which inflation and the decline in other sources of university revenue have hit the student's pocketbook.

For the resident student, the median charge for tuition and fees has increased 67.2 percent since the 1965-66 academic year. (This is the first year in which NASULGC computed median charges for various student costs.) The median in 1965-66 was $311 compared to the 1973-74 median of $520 for a total increase of $209.

Non-resident student costs have increased 82.02 percent over the same period. The median charge in 1965-66 was $734 compared to the 1973-74 median of $1,336, representing a $602 jump. The average annual increase over this eight-year period amounts to 8.4 percent for resident students and 10.3 percent for non-residents.

(The following chart shows medians for tuition and required fees, resident and non-resident, for the years 1965-66 through 1973-74 and the percentage and dollar amounts of increases for each year in both categories.)

LONG-TERM TREND IN CHARGES FOR TUITION AND FEES

	RESIDENT			NON-RESIDENT		
YEAR	AMOUNT	$ INCREASE	% INCREASE	AMOUNT	$ INCREASE	% INCREASE
1965-66	$311.00			$ 734.00		
1966-67	333.00	$ 22.00	7.07%	782.00	$ 48.00	6.54%
1967-68	351.00	18.50	5.56	850.00	68.00	8.70
